

Lighter. Faster. Higher...

...with Carbon Fibre Technology.

 **ice skate
evolution**

www.iceskaterevolution.com

Introducing the biggest leap forward in ice skating blades...ever!

Ice Skate Revolution blades are the first blades to use Carbon Fibre Technology, enabling skaters to jump higher, skate faster, with greater control, sustaining fewer injuries, whilst being able to train for much, much longer.

These revolutionary blades are in high demand, initial stock release is limited and are available now!

Blade models available are: GoldSeal, Pattern 99, Phantom and GoldStar
